EDUCATION

† UNIVERSITY OF RWANDA
Computer and software
engineering
From Feb 2021-2024 :

I'm student pursuing a bachelor's degree in computer and software engineering, who is gaining comprehensive knowledge of fundamental principles in computer science, software development, and hardware design through coursework covering topics such as programming languages, algorithms, data

Elia Muyizere

COMPUTER ENGINEER

I am a hardworking and trustworthy student of Computer and Software Engineering. I know how to manage computer systems and can write code in programming languages like JavaScript, Java, and React Native. I am excited to work on software engineering projects and want to do my best in a challenging work environment.

EXPERIENCE

WEB DEVELOPMENT

As an intermediate web developer, I have a solid foundation in front-end and back-end technologies, including HTML, CSS, JavaScript, and popular frameworks such as React and Laravel framework. I have experience in building responsive and user-friendly web applications and collaborating with designers and other developers to create engaging user experiences. My skills also include proficiency in version control systems like Git and experience with testing and debugging techniques to ensure the quality and functionality of web applications.

MOBILE APPLICATION DEVELOPMENT

As an intermediate mobile app developer, I have expertise in creating native and cross-platform mobile applications for iOS and Android using React Native. I have a strong understanding of mobile app design principles and user interface guidelines, which enables me to develop visually appealing and user-friendly mobile applications. I am experienced in working with APIs, integrating third-party libraries, and optimizing mobile app performance for various devices and screen sizes.

structures, computer networks, and operating systems.

✠ KIZIGURO SECONDARY
SCHOOL

From Jan 2017-2019

I completed my secondary education with a focus on mathematics, physics, and computer science.

NETWORKING

I have hands-on experience in networking, including the configuration and troubleshooting of devices such as routers, switches, and firewalls. I gained this experience during my internship at **Minicom(ministry of trade and Industry)**, where I worked with network protocols like TCP/IP, DNS, DHCP, and VPN. I have implemented and maintained network infrastructure to ensure both optimal performance and security. My networking skills allow me to effectively manage and support network connectivity.

Language:

English
advanced
Kinyarwanda
Excellent
